WARNING FROM THE ENEMY. In the opinion of George L. Converse, Democratic ex-Congressman, the Democracy of this State have practically given up the contest for the Governorship, and will make a quiet and vigorour fight for the Legislature. Mr. Converse is an admirer of Senator Sherman, regarding him as the greatest statesman in this country to-day, and speaking of his retirement as a national misfortune. He thinks that John R. Mc-Lean, who he says has more money than he can use, is possessed of an ambition to become a member of the United States Senate, and to infinitely increase his fame and honor in attaining that high place by defeating a man of worldwide repute in the person of SenatorSherman. To attain this end he has instigated the fight between Campbell and Neal, and will lavish his money in close counties to secure the election of Democratic legislators. There is a word of warning to Republicans in these opin- Horses ions of Mr. Converse. With Democratic harmony we were reasonably sure of electing Major McKinley. THE question of restriction of immigration is coming to the front with more and more pertinency. A year ago through the large falling off in immigration, it seemed that the question would prove its own solution. But now each week witnesses an increase over the preceding week in the number of foreigners landed. The numbers of the swarm now pouring in is frightful to contemplate. Of this influx nearly all come tainted with crime, and none possess the traits which make the best American citizens. Moreover, by far the major part of this crowd have come to crowd into the densely populated slums of the cities, there to complete their education in crime if they are not already graduates in vice. The exigencies of the case are certainly of sufficient moment to demand the gravest attention of those desirous of promoting our country's welfare. They come to further congest an already overstocked labor market, and our personal interests direct that such immigration be rigidly excluded.

The Third Demorest Contest occurred at Colerain City last Friday night. The house was nicely decorated. Mrs. Wm. Upon view port, and Miss Belle Brown, of Mt.Pleasant, were introduced, and the meeting was then opened with prayer by Miss Belle Brown. The contestants were, Miss Jennie McFadden, subject, "Advertising for an Honest Rumseller;" Mr. Geo. Each speaker presented himself in a very pleasing manner, and handled his subject with much care. Mr. George Roach, of Harrisville, received the silver medal. Vigor in restoring gray hair to its color, promoting a new growth, prevent-ing the hair from falling, keeping it soft, silky, and abundant, and the scalp cool, healthy, and free from dandruff or humors. The universal testimony is that this preparation has no equal as a dressing, and is, therefore, indispensable to every well-

mished toilet. "I have used Ayer's Hair Vigor for some time and it has worked wonders for me. I was troubled with dandroff and was rapidly becoming bald; but since using the Vigor my head is perfectly clear of dandruff, the hair has ceased coming out, and I now have a good growth, of the same color as when I was a young woman. I can beartily recomend any one suffering from dandruff loss of hair to use Aver's Hair Vigor as a "Some time ago my wife's hair began to

brain fever, my hair all came out. I used such preparations for restoring it as my phy-sicians ordered, but falled to produce a

growth of hair. I then tried, successively, several articles recommended by druggists, and all alike fell short of accomplishing the

desired result. The last remedy I applied was Ayer's Hair Vigor, which brought a

growth of bair in a few weeks. I think I

used eight bottles in two years; more than was necessary as a restorative, but I liked it

as a dressing, and have continued to use it

for that purpose. I believe Ayer's Hair Vigor possesses virtues far above those of

any similar preparation now on the market."

By subjecting the oil to a digestive process, previous to its incorporation in "SANGOLE," it is deprived of its unpleasant features, while its nutrient value is greatly enhanced. A series of analyses has revealed the interesting fact that "SANGOLE" posthree times the nutrient power of
